

TrueSort™ parcel sorting solution

Flexible parcel automation.

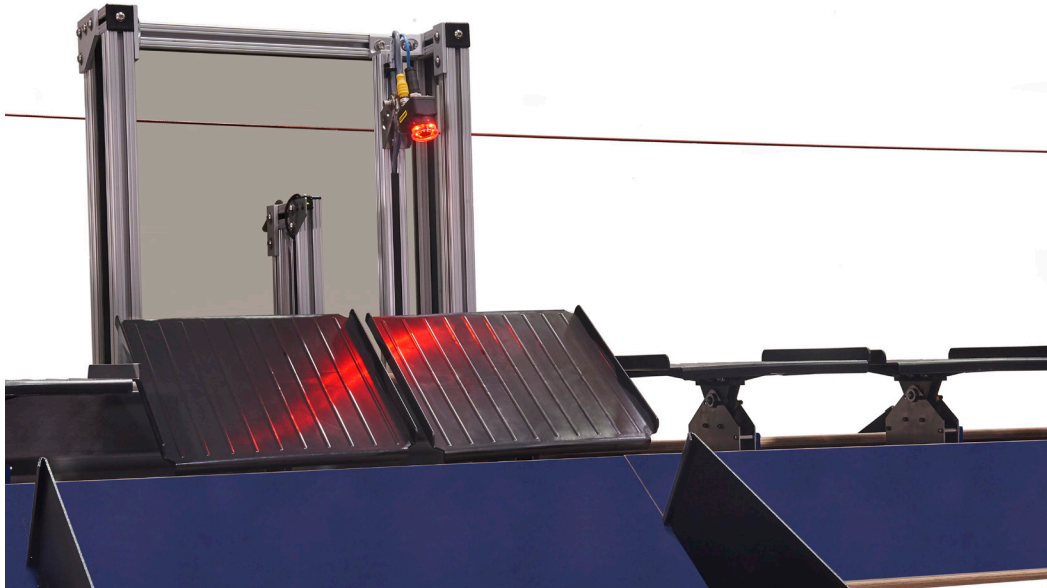

TrueSort parcel sorting solution from BlueCrest simplifies the way you handle large volumes of parcels by using automation to accelerate and refine your manual sorting process. With its flexible, modular design, it enables you to customize and expand

your system to meet changing business needs with minimal downtime and costs. The TrueSort solution offers a wide array of tray technologies: Bomb Bay, Push, Tilt and Shoe. Each of these options will help you sort many different parcel weights and sizes.
