

ENTRUST DATACARD® TRUCREDENTIAL SOFTWARE, INTEGRATED SOLUTIONS PROFESSIONAL & ENTERPRISE EDITIONS

YOUR PROGRAM, YOUR CHOICE

The Entrust Datacard TruCredential Suite offers an edition that's just right for you — whether you're just starting a credential issuance program or need to grow your current capabilities.

TruCredential Professional Software includes:

- Smart card support
- Decentralized data capture
- Centralized data management
- Microsoft Active Directory integration support
- Oracle, SQL and DB2 database support
- Document scan capture support

TruCredential Enterprise Software also includes:

- PACS integration
- Higher scalability up to hundreds of user stations
- Integration to TruCredential to third-party applications via RESTful or SOAP web services
- Integration to TruCredential via our TruCredential SDK and/or smart card plug-in

A True Enterprise Solution to Streamline Your Enrollment, Issuance and Data Management

When you need to issue credentials with higher levels of security, Entrust Datacard TruCredential Integrated Solutions Software provides a next-generation solution. This modern, intuitive, browser-based platform provides the core software tools needed to design, print and manage IDs and credentials. TruCredential Integrated Solutions Software also allows you to streamline your organization's enrollment, issuance and data management with enhanced features and functionality.

Enhanced Features. Issue more sophisticated credentials including smart cards, with pre-built support for configuring smart card personalization options.

Integrates with Enterprise Software. Integrate with a variety of enterprise level solutions, including systems that offer RESTful or SOAP web service APIs as well as direct database interfaces to Oracle, SQL and DB2.

Easy to Deploy. This web based software allows users to easily deploy and manage the software across their network or campus. The fact that a dongle is not required allows the software to be on multiple computers at the same time, and you only pay for concurrent users, not per license.

- Centrally manage credential designs, workflow templates and printer configurations while still allowing data capture from distributed locations while providing an audit trail.
- Install and configure client workstations quickly.
- Restrict user access using the role-based access control mechanism.

Optimized for Mobile. Enroll applicants, capture photographs and/or signatures, and issue cards directly from a mobile device.

ENTRUST DATACARD® TRUCREDENTIAL SOFTWARE, INTEGRATED SOLUTIONS PROFESSIONAL & ENTERPRISE EDITIONS

TruCredential Features	PROFESSIONAL	ENTERPRISE
Magnetic stripe, barcode and QR code	*	*
CSV/ASCII data file import	*	*

Oracle and DB2 database support	*	*
Active Directory support	*	*
Smart card support	*	*
TruCredential smart card SDK		*
Customization toolkit		*
TruCredential SDK for print request		*
Web service integration tool (connect to third-party REST or SOAP APIs)		*
Field based access		*
Number of concurrent users	1 to 20	1 to 200
Number of credential designs	25	999
Number of Workflows	up to 25	up to 50

Build a complete card issuance solution.

Entrust Datacard TruCredential Suite works with Datacard® printers, supplies and global services to give you a complete ID issuance solution that delivers exceptional results.

SYSTEM REQUIREMENTS

Operating System: Microsoft Windows 7 / 8.1 / 10
Mobile Operating System: iOS, Android, Microsoft Surface

Web Browser: Chrome, Internet Explorer v10 or 11, Edge
Memory: 4 GB (8 GB recommended)
Hard Drive: 1 GB of computer drive space

Desktop or PC Screen Resolution: 1360 x 768 (minimum)

TRUCREDENTIAL SUITE STANDARD FEATURES

Credential Design

- Front and back card design, pre-designed card templates
- Variable/static text field, photo graph field, variable/static graphic field, date field
- Magnetic stripes, bar codes and QR code

Workflow

- Text field, static text field, static graphic field, date field, print count field
- Auto-sequence field, check box field, list field
- Text field mask, field option – read only, hidden, mandatory, searchable

Database & Data Import

- Import data from CSV, ASCII file
- Text field, Static text field, Static graphic field, date field, print count field

Photo Capture

- File input, TWAIN, DirectShow, web browser

Language Support

- English, French, German, Japanese, Portuguese (Brazilian), Simplified Chinese, Spanish
- Localization utility for other languages

Printer Support

- TruCredential integrates with non-Datacard devices

Smart Card Stock Supported

- MIFARE Classic
- MIFARE DESFire EV1, EV2
- HID Prox
- HID iClass
- Sony FeliCa

Smart Card Reader Supported

- PCSC (SCM or Identiv)
- DUALi (single-wire)
- DUALi (two-wire)
- HID OMNIKEY (single-wire)
- RFIdeas
